

SumoFlo Display

INTEGRAL DISPLAY TRANSMITTERS

The SumoFlo Integral Display Transmitter provides users with instantaneous process metrics. The Integral Display Transmitter, designed to work with the SumoFlo CPFM 8103 Single-Use Coriolis Flow Meter series. This integrated technology enables operators to identify and respond to process variations quickly reducing wasted time and materials.

The SumoFlo Integral Display Transmitter comes in three optional configurations to meet your process requirements. Available in panel mount, benchtop with display, and benchtop with a cradle for the SumoFlo. The display transmitter features a 144 x 144mm screen which can simultaneously display:

- Flow rate
- Totalized flow
- Density*
- Temperature

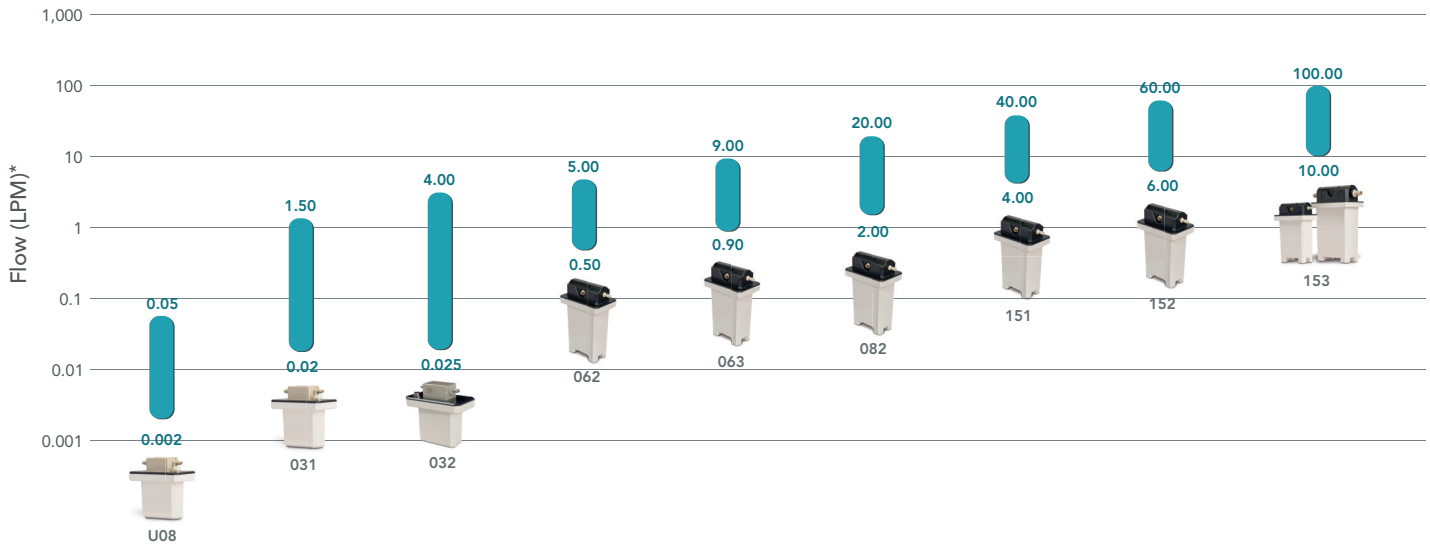

The SumoFlo Integral Display Transmitter features an easily accessible control panel. The Integral Display Transmitter control panel allows operators to re-zero and reset the totalizer. The SumoFlo Integral Display Transmitter is designed for scale-up to production processes. The Display is enclosed with a NEMA enclosure and is IP 65 to meet your production needs.

Specifications:

- 144 x144 mm display
- Optional panel mount or benchtop displays
- Four line display
- Re-zero and reset the totalizer functions accessed from the front panel

* Density functionality is not available on SumoFlo CPFM-8103-U08 model.

SUMOFLO FLOW RATE RANGE

SumoFlo Flow Meter Models Supported

CSEN-8103-U08	CSEN-8103-031
CSEN-8103-032	CSEN-8103-062
CSEN-8103-063	CSEN-8103-082
CSEN-8103-151	CSEN-8103-152
CSEN-8103-153
